

stubbings. Was it not provoking?

When I was looked  
so much as it did to irritate, since  
my absence of four whole days  
the mess board have all put on  
their white robes, and everything  
around board is up and down  
"Oh, if I could have my letter  
delivered to you now."

It seems as if it is the beautiful  
"Spring"

I have been waiting for such a  
glorious spring to start, but I  
could not do it, I did not want some  
one to take to so badly.

I do hope, brother, that thy letter will  
succeed in making so good, it  
is the kind one that has been  
commenced, Last Saturday I  
wrote a line, directed the  
envelope, then discovered my  
mind about it and

burned it up, and I am  
so glad that I did, I do not  
know what will be the matter of  
it that day I never wrote such  
a letter to any one before. You  
know, there is such a delicious  
pleasure in writing letters and  
essays, and then burning them  
up.

I had a note from Aunt  
Dear, to night she said something  
about a beautiful bonnet and  
something about the door of it, hope  
she is not mistaken this time  
When bonnets do flourish in  
Springville, for the bonnet that  
is to be returned will be some  
flowers from the garden of Cherry  
Grove, there, do not say any  
thing to the girls about it, I  
have written to you, they may  
not like it

world really, I am sure near forgetting that I read  
 "School Teacher" I should have written about that. The  
 first thing I saw this morning but passed off finally so far  
 and I am sure that I secured to wear the hat of a  
 school teacher. I have to write these school things  
 much better than I know that are so much better than  
 boys. I don't think I should I throw this pen  
 and paper, if you would only appear to talk  
 to me tonight I don't feel in the bit of writing  
 mood, but I thought I would ~~write~~  
 would think I ~~was~~ being a bad ~~and~~ again.  
 It is, very pleasant that readings with their is no "Love  
 inspired" to mine, but the good, are making  
 great articles, consider, if they will not inspire Love  
 just as well as the best.  
 Did you have a pleasant ride back to G<sup>o</sup> after learning  
 from the school and with you as a source and  
 you I fear it may not seem pleasant going back with  
 alone. We had a pleasant ride or at least I did I  
 cannot say for you.

Brother you continue your letter  
 and I do not hear any answer  
 but will continue to do it. You call  
 me "pure and noble" and I am  
 not so very far from it  
 and I feel it, more or less being  
 called so I know I am not  
 worthy, but you should love  
 me, but I would be better if it  
 is strange at all that I should  
 give you a sister, I do but it is  
 strange that you should give me  
 a thought. The Deakalian meets  
 tomorrow night, it does not seem  
 too weeks since I was at G<sup>o</sup> school  
 teaching must agree with me  
 and this second, it will have  
 more than the usual amount of errors  
 as it has been written in more than  
 usual haste. It is late and I repeat  
 close my letter. Good night and I hope you  
 are well.

I am sure that I have been  
 very much of the "disappointed" school.  
 you also in school I realized because  
 because I would not let paper  
 come after me, and when I  
 did not have received a good  
 looking picture of course looks  
 well as good (good) for me.
