

we did at the close of last term, but
I do not think you will, we did not
enjoy the special as much as we did
our own, or I did not and I judge you
by yourself a righteous judgment as
to not? Do they have anything to do
about your excursions to the Lake?
and can they leave you any about
it? I hope not for I should not like
to have them leave you about
it is surely undignified and I prefer
clear my letter after I make a few
more "business" and send it tonight
without sending it over or I fear I
should burn it up instead of sending
you "little things to look for" I
want to say something that I would
like as the can tell it to me. I don't
think you should for we shall have
something else to talk about when I see
you. I hope you will think for me
some day because
they are good people.

I cannot sleep tonight, it is
so bright and beautiful, it seems almost
wrong to think of sleeping. But fate does
not think so for she is sleeping as soundly
as though this was not such a glorious night.
She is having happy dreams for she is in
sweet little chairs about her room.
Where are you tonight? What
are you thinking of and what is the
sweet light that is in your eyes?

the words, "Albion" and "My own, my own all
all my own" have trembled upon my lips
and perhaps I have uttered them for I
have at ~~all~~ been alone nearly all day and
this would not have been displeasing for
me to hear.

There is joy, so very much joy
in my heart tonight, there has been joy
for a long time but not so very much
only since you were here last. I have some-
times, often been unhappy since you told
me that I was beloved, but the fault
has all been my own, you were not to blame
for it, but since I saw you last I have not
had one unhappy thought, all has been
sunshine, and glad music in my heart.
I know that Albion has thought that I
did not trust and confide in him as
I ought, not as he did in me, and I
did try to overcome all fear but as you
say had for me to do, that I have seen your face
and so, I have given up all fear of him
and am now as happy as a child.

try more, never to do so again.
I am very much strengthened
strong, and your Beloved will be
me right, if I you need me I will be
very much do I need you I will try
not to love you too much but I cannot
sometimes that I do, that I have an
idol, for me that I may not be
idolater, for their punishment is great.
Albion, I must have been
those that surrounded the question
glorious dream within your heart, for
before you wrote it to me, and I
has never spoken of it to any one
was sure she knew it, and had
from your grandfather. I am
did not hear it from you, but I
not, independent of him, and I
to see you, I have been
many another day, and I

of it, and I have been

we did at the close of last year. I
I do not think you will, or did not
enjoy the Social as much as we did
our vision I did not and I judge
by myself a righteous judgment
it not? Do they have anything to
about your excursions to the lake
and can they leave you without
it? Hope and for I should like
to have them tell you about it.
It is nearly midnight and I
close my letter after I make a few
more remarks and seal it
without reading it over and
could burn it up instead
of to you. Tell August
to every thing that
he can tell about it.
