and I think it is
 letters reach you so much sooner
 when they are written to go out in
 the mail Saturday I shall always
 have this time for you. The time
 does go off so rapidly. I can not keep
 track of it at all - it is seven weeks
 now since we left home and it
 hardly seems like one. He had a letter
 from Dinah yesterday, she is very
 homesick and does want to see us
 so much. She spoke of your letter

as giving her an amount of pleasure attempt in French composition
Falser was still very poor, but they I think I must send some German
thought that he was gaining a little for you to translate -

Danna wrote that she had seen ^{My sentiments} the Prince and was not very much ^{of} ^{his} ^{words} ^{flattered} in his favor. ⁱⁿ ^{English} ^{quality} ^{of} ^{her} ^{writing}
she is quite green looking & so is. I like German very much our class
your letters reach me on Wednesday they increased to six and they have
generally, at first they did not all studied it before except Angie
til Thursday but have concluded and I and we keep up with
to be a little smarter. - them. I wish I could tell you

Don't you think I am progressing as good a tale about music - but
love? I read a french essay for amma but Killie did say "Bess"
Wednesday which Killie said to do when I played my lesson
was "les bien" which is very easy for to her to do I like it very much and
me now and I get along finely am always glad when practice hour
have gone over so much ahead of course but it is so discouraging
my classmates - who have studied Now Dear I have a request to make
it nearly as long again as I would to you which if it does not strike you
you like my essay, of course it is very faintly you must grant for any
nothing great but I feel quite safe. I like Mrs. Barnes very much
elated about it as it is my first and I want you should correspond

with her she is five times superior than Miss Ballentine and
and would give you original letters I think. Of you could do her
any so much good as you fear my journal, she needs someone
like you to read that but have had just now quite a long
chat about you and she would like very much to correspond
with you (you) she does fear you that she don't get quite
so sticky a chilly about it as Miss B. did. Now I think don't
think I dislike Miss B. but I do like you could not help
it but right but she is so childish about some things
My father was English and for a while her very much
she makes the club very interesting indeed. Miss Barges
is about the same kind that I may become acquainted with and
I do like her very much as I can assure you she like to some
degree. I that do you then to I up - will you do as I want you should
like a dear good of them. I gave you don't but you might give
a great deal of pleasure both for my eyes very strong both her and
some of her letters have very originally - that my representation
does sometimes in with entirely - I give you of the last I
very love I have in as you did I suppose I should like to give
felt so goodly about Miss Barges. She has been in there to give
since I have been to the and I said I was so much about
her conversation for you Miss B. I have been to the
day I get her about you and that I should about the road
about I. Her writing club is so large that she had no room for
