

My dear Mother
I received your kind letter
of the 10th and was glad to
hear from you and to hear
that you were all well. I
am well at present and
hope these few lines will
find you all the same.
I have been thinking
much lately of my dear
Mother and how much I
love her.

has been on all the time. I like it so much and you see my cheeks and dimples are so high when I finished it because I had slept so long and it was "leaving" my side was only because I had slept so long and I think it funny that I had read it before.

Alison I believe I grow every day for your presence quite as much more passionate, more full of such warm blood. I feel it coming through my veins leaping bounding around my heart and arms and all through me. I feel so strong and happy, so different from one year ago. I was then so blue almost without life and blood I was dull, spiritless and had not energy enough to lift up in the air. I was pale and cold and could not keep my feet on the lounge and I long for you -

detect the difference in my cheeks and dimples when I finished it because I had slept so long and it was "leaving" my side was only because I had slept so long and I think it funny that I had read it before. I do not know but I long for you I should have been so loving and passionate that would have given me, and I been so quiet and still, I scarcely have moved. I could not keep me still I have my arms around my head and I long for you - I feel you in my arms and I feel you in my arms and I long for you -

My dear Mother I have been thinking
of you very much lately and
wondering how you are getting on
I hope you are well and happy
I have been very busy lately
but I shall write you soon
I love you very much
Your affectionate son
John

My dear friend,
I have just received your letter
and am glad to hear from you.
I am well and hope these few lines
will find you the same. I have
not much news to write at present.
I am still in the same place.
I have not seen any of the
family since they left. I
am not very well at present.
I have a headache and feel
tired. I have not been
able to do much work lately.
