My Dear Love

I have not much to  
tell you to day - Geronia, my dear friend  
and sister is dead I had a letter  
from Knight on Monday but told  
me all she died on Sunday  
two weeks ago - She faded very rapidly  
from week but more than all the  
near her departure and Saturday  
was deposed and kept her  
place on the lounge and was  
the next morning she told  
her and her son all but  
they need not be worried

They were would be soon again. The  
Physician was called but he could  
do nothing for her - and in less than  
an hour she was dead. She bid them  
all "good bye" separately and told them  
not to weep for she was very happy  
was going home to her kind all her  
at night" she wished thought to  
write to me and tell me when she  
died and that she loved me and  
to give me one of her rings - thought  
about her just as the last breath  
was leaving and asked her if she  
knew him, she opened her dying  
eyes and and looked at him and  
then with a smile of perfect peace  
and love her pulse was still found.  
It was so sudden so very unexpected  
I had not thought she would die  
so soon, so young, so happy and  
loved, my sweet gathered friend  
you are all her thought your happy

from my friend  
than a year ago  
called home it  
short time  
side and looked  
joy upon her  
promised the world  
her a wife  
Do you remember how  
and happy she looked  
she came to see me just  
I came away I went  
with her when she left  
looked so sweetly as she  
arms about me and  
good bye we both  
I cannot think  
from Lynn how  
this old  
it is  
the last year  
when she

highland went from one  
to find other young but they  
to see them on bank - At 10<sup>15</sup> feet or did. I  
what Death was until they  
was all eyes to me - and they  
me them. I am a glad that they  
and he at yet - it is a happy thing  
as a bright angel in heaven -  
as a glory looking ahead. They  
who kept a letter from her. They  
in a note of today and he with  
Oliver B. B. the way you  
and in Kuyville, and they  
at with feet - we have heard  
many the several have done - and little  
many them -  
got very deeply to day but by  
light. I have had once of  
to see and see by  
of and at that  
I think that all  
of the way
