Yes - My  
wonder, why I have not sent  
you word before, The truth  
is I could not tell you what my  
success was, I have been round  
with those books just enough  
to know that we cannot make  
more than a hundred dollars per  
month at least until after  
~~the~~ harvest, Men are too fear-  
ful from their bad luck last  
year, Other agents are giving up  
their business until after more  
is known about crops & until men  
are willing to stop their work to  
talk with a man, Yesterday I  
worked for my brother & think  
I shall do ~~it~~ perhaps for some days  
to come.

Perhaps you had better try your hand at agency in N.Y. but as to that I cannot advise, I shall do no more at it until you will be here & perhaps do a small day's work, I shall write Michell telling him that we shall not part this territory under canvas until after harvest &c. Yours in haste J. Webster

It was for a while cold & wet but it is hot enough now in all conscience & all our crops in the corn, crops of all kinds look well & the prospect is better good for easier times, yet prophecy is not good & all Messrs & I shall wait for further developments, The books I shall leave in K, save one which I will take with me to daybrook I have not time to write more now.

Tell Cooper he is remembered & will hear from me soon  
Regards to Davis, Hewitt, and Mrs. Gester & family

minutes waiting at door east corner  
- we said therefore you will have  
- do without it the time.  
as usual today dreamed of you  
that I have been through the gymnasium. I do  
not know what I was but we were  
very much quick. I think any succeeding  
day. One thing to day that brought  
you to my mind was of a young lady  
very that I had large evening by but once  
who I had heard of could not find any and  
I could not help saying he was  
young and good. He was such a  
sweet little fellow. But you thought  
I must have heard so before. The  
woman looking at that lady lady  
and saying boy - dreamer of you  
I say - I say myself as a mother and  
a piece of white wings.  
I think I am getting to be a good  
girl for a piece of white wings.  
I think I am getting to be a good  
girl for a piece of white wings.  
I think I am getting to be a good  
girl for a piece of white wings.

coming home do you not feel my  
presence and open your arms to  
'receive your darling to her home on  
your breast? What a delightful home  
I have. though it has been occupied  
for nearly three years no black clouds  
or tinges have been allowed to  
visit it or to position away the sweet  
birds that were singing love songs  
in the sunshine of my home.  
You see my love I am just as happy

Dear  
I think I am getting to be a good  
girl for a piece of white wings.  
I think I am getting to be a good  
girl for a piece of white wings.  
I think I am getting to be a good  
girl for a piece of white wings.

as ever, and I hope you are not I go down to Mr. W's almost every week  
so weary sick and sad to day as when I went something to eat dead  
you were last Sunday. I think it beside Seminary fare, and always have  
real mean that you must work a good time and good victuals  
so hard and I would not do it I am doing finely in drawing Dear  
for anybody if I were you. I almost so Miss Knight's says - and I think  
expect to hear that you are obliged if I can do well in Music and  
to give up entirely because they give Drawing - two things that I never expect  
you so much to do. When does this to do even passably well - can do most  
term close and how long vacation anything. Music goes even better this  
do you have? - I am better than last in all my studies

With my dove I have been to church and I sitting along finely  
heard a very good sermon from Mr. Cummins. Angie keeps bothering me all the time  
but that did not take my attention as by reading out loud extracts from  
much as <sup>did</sup> a very beautiful lady. not Beecher which particularly please  
sat in front of me, she was a bride and her she don't think I ought to write  
so very lovely I did not wonder at the letters to day but my Dear I am coming  
and that was expressed in her husband back to my old practice and write  
eyes as she stood by his side. She is you always on Sunday if they do not  
a stranger, from the West - her husband like to have us do it here! I shall  
say of a gentleman here. The girls could do as I please would not you? -  
do nothing but her beauty at the dinner I expect my Dear to hear of Miss Court  
lovely and wish especially beautiful - and - brides  
reasonable as at we. -

much of you. I don't know I may get feeling  
'so full. I don't think my dear boy began  
written to you for a long time. I am  
big couple. Don't this make you feel  
that it will have effect enough to confess  
a school to set. It's like ma. I think  
my parole yet. Are you going to be  
have perfectly formed your feet  
your letter. I think you will have  
Kathie from her that you could have  
Annie would make me stop and  
atop of night. I have been very  
that. Barbara says - but what of  
James - Marie says - I don't  
Laska alone. What say you  
in my plate and let me  
you forget you were tired  
Clap - and I wish you would  
for on something else. I  
educating things. I  
I may tell you I fear  
you whole. I think  
the work for which  
sincerely love. I  
say anything or  
it - that it will  
I want to give  
cannot think what it is
