...and I spread your will, the
you will be a useful servant
to be. The few days I
I am going to stay here
my own paper. I have
to give I thought not
Anna (Elizabeth) and
my sister. If it should
of your words, one and
I mean it with all my
from the day I saw
him I died. I hope
to see it in the morning
but I am sure I shall
I shall not be able to
say too dear. I shall
to the gathering - I am
way than the right -
I would wish it as
from, to give just as
May advise and things
I fear we are all
I wish we were
I wish we were
I wish we were
I wish we were

them take my flowers and don't forget
to put them with the first
that had our hearts and hold you still
forget me not forget me not
