

Jan 28th 1863
Sunday P. M.

Albion.

I have just washed and
dressed myself for Sunday, and if
you would come in, I would, with you,
you may expect to the dish of succinea
as well as me, and then for a easy shot
I have on that dress for use, to admire
as much in it. I almost makes me
seem there again to wear this dress.
It was a nice and new now as then.
How could I have had flour, I was gone
since then. It seems not really possible
how the new Boston Green was raised
last night. It takes so long in the
new new new since I wonder if
mine are all in in morning, and
that I know that you are with the sea
which that they travel so slowly to us
news of an engagement at Newbury

since then I have not been in any unless you
have seen something up me with address
Mr. Gagliardi now is on the
and they have heard nothing from on a long
time are are seeing in anxious indeed
He has been lately asked me if I would
not speak of him to you. I imagine
Captain and Co. He has been at Turville
I believe and I don't know what Co. it was
I would like to see the old paper
She will see us at this end better or
are even more any seen any of our work
returned him and ask if I have
heard from you and if you see
anything about the will look in our
mind to let her see it if I could
remember it today if you will take
the trouble to send it you will confer
great favor. He has been at some Cas-
tles and has heard some. We have good

nothing now and I have improved it
by having a delightful sleighride yesterday
with a fine team I have picked up
on your absence. I am spending the winter
and winterily and if you should happen
back at any time don't expect to find
anything like the girl you left. This would
occasion no regret on your part I pine
I cannot conceive what you were sent
back into by for. Some military meaning
undoubtedly - - - - - - - - - - - - - - - - -
I mean being is going
home next week if he is no worse than
he is now. His decline has been very
gradual but likewise very sure. He
do not know what a change of climate
may do but unless it would work
almost a miracle he can not live
six months. He is so changed. So as
childish and petulant as a spoiled baby.
Poor boy I am sorry for him. He has suffered
so much. Auntie wants very much that I

of your letter about a year ago. I
was in the field and saw some
of the same. I was in the field and
saw some of the same. I was in the
field and saw some of the same. I
was in the field and saw some of the
same. I was in the field and saw
some of the same. I was in the
field and saw some of the same.

You may have seen some of the
same. I was in the field and saw
some of the same. I was in the
field and saw some of the same. I
was in the field and saw some of the
same. I was in the field and saw
some of the same. I was in the
field and saw some of the same.

Yours truly,
C. C. Johnson
