Sir:

We have examined your work - "The Code with notes and decisions" - and while we do not say that it is as near perfection as it might have been had longer time been allowed in its preparation, we are of the opinion that it is a valuable contribution to the department of Code law and, so far as North Carolina is concerned, a work indispensable to every practicing lawyer.

Very respectfully

John L. Holmes.

In my humble opinion Judge George Booth  
Ordinary Great Research, labor & legal ability,  
a work much needed wherever the Code of  
Civil Procedure prevails, and so valuable to  
the practitioner & other officers of the law in  
North Carolina, that it may be regarded as  
as almost indispensable.
