

Dear Mother
New York
Friday, Feb 8th 80
P.M.

from one of the teachers who made
that visit to us at West Green in the
winter of 65-6. Miss Mearns:
The "Society's" Command" bring many respon-
ses. I thought you might like to answer
it.

I have been to Mrs Goodridge's to
the "Society" and had a very pleas-
ant afternoon indeed and think
I shall go again. It is a very good
way to get acquainted besides
doing some good. -

I think you must be having
a pleasant time in New York
or at least a busy one. As you go
to Washington and be lionized
I am sure it would be worth

more to you than anything I know of.

The flowers came alas too night but were very much withered, the rose free all together in taking it from the box, but the love that's prompted it was appreciated just the same as though they were as fresh as when first sent. Mrs. Eates sent me in a nice corner "what not" to day and Lucia has been very happy in fixing up her dollie's quarters on the bottom shelf. She has made it extremely successful. Lucia says she is quite a marvel in her mastery of French. Lucia sends back to her papa as many kisses as you sent her. She has just gone to bed. I let her set up till nine then she goes right to sleep. - There was a lot of people came in on the 10. I thought Mr. Hoodby said he had sent you a return ticket, which was very kind
