E. MILLER.
 F. A. FLINN.

W. W. Toungre Esq. ⁵

Draw \$1500. — As the \$1500. can
 be used in payments — 500. now,
 balance — half Jan. & half, next
 year — we can spare the money,
 and therefore to determine what
 to do — ask some questions —

Under first proposition you say:
 "You to have all proceeds of sales
 until the \$1500. is returned and
 afterwards to credit me with $\frac{1}{4}$
 amount received on my debt
 until paid — the remainder
 of the $\frac{1}{4}$ interest to be yours,
 You to release me whenever
 it is apparent that the $\frac{1}{4}$ interest
 will pay the principal of my
 debt or when it is assured it

is worth that sum."

Is the "1/4 amt recd" referred to above - the 1/4 of the amount we receive on our 1/4 Int. in the Patents & we to release you when the 1/4 of our receipts on our 1/4 interest, will pay the principal of your debt or is worth the same?

Do you suggest selling all the Patents for Germany, France, Austria & Russia outright? & further, you say "These would, I think, pay you out for 1/4" - He don't understand this last "think" -

What details in the future, in the disposition of the foreign Patents will it be necessary for

us to give time to?

" You say in conclusion:

"The only difference between the 1st
& 2^d propositions is, you release
me in consideration of the differ-
ence between $\frac{1}{3}$ & $\frac{1}{4}$ interest &

you have a refusal of future &

unrelated inventions which

you can use or not as you choose,

1st Query - What does "unrelated"
mean?

2^d Q - If the only difference

is as you say above - between the two
propositions - please send us

a list of the Patents - present
& future, (as far as invented) - in

Harner's running gear poles &c
&c - which you offer us a $\frac{1}{4}$

interest in - (the Foreign Patents)
 and also list of Countries you
 will take the Patents "out" in?

We want definite information
 of what you want to
 sell us for 1500. - & we will
 wire you reply if necessary
 & we can get reply in a tel-
 egram - & you can then
 draw for the first instal-
 ment 1000. at sight, if we
 decide to purchase.

Truly Yours
 Miller & Flinn
