

515 - 14th - street N.W.

My dear Mrs. Tougee:

Father and I feel quite indebted to the Judge for his kindness in writing the Website people. - Something may develop with them in long - especially if matters occur of a favorable nature in Ireland -

I am very sorry to learn of your sad winter. -
Mayville must have been dull

and to find indeed to have caused you to be
discouraged - you whom nothing could
discourage.

I hope ere long to be able to see
you. A business trip throughout the state
may be necessary within a month or two
and if I should get within a half-day's
journey of Mayville will surely go and
see you, I only for an hour or two -

The Washington experience has
proved a very pleasant and interesting one
to me, both in a professional and social
way - I will doubtless remain here until
June and return in the fall -

The family are all well - I see
them every few weeks. - The Judge said in
his letter of two months ago that he would soon
write me at length - I should be very
glad to hear from him - How does his business

business progress? Ask him
please to write me. - Is
Jennings still in Dryville?

Remember me warmly to
all with you - Let me hear
from you often and hold me
as always.

Affectionately and devotedly,

Frank

Washington - April 27. 87.
