My dear Sir -

I mail you this a copy of my sermon of last Feb. to the G. A. R. on the meaning of the war 1861-65. The sermon enforces the view of the pamphlet "Fraternal Relations" issued in Autumn 1884. Nothing since has changed our mind, as to where the Ch. and the Country will have to come, but we will go forward with that cordiality which is desired, and have the feeling of a rally united people. I was glad to know that the view of the pamphlet, is regarded as true not only by yourself
