

overly in haste  
at all right.

Meadville July 29 1887.

My dear Judge Courser

an estimate from of  
the 27<sup>th</sup> of the same, and I thank you  
for the contents of them it contains.

I am quite sure of operation needs  
your approval, for you are not aware of  
the estimate I place upon both your  
premises and inclusion upon matters and  
things in general.

I send you to day by the mail at  
least that takes this to you, a copy  
of the Schuylker Citizen, a paper in  
Illinois that a week ago came to the  
Yankee's list here, in exchange, magazine  
which I think I sent you a clipping. I  
then wrote for you dozen copies of the same.

I have been peppering the Press of Illi-  
-nois and some others, and the same  
I mean I think is beginning to bear  
fruit. I should like to see you

27  
and have a chat with a view of receiving  
suggestions upon those points.

I know Sherman well and the Mining  
Intelligencer from Congratulators,

As much to Dominator over Lincoln  
any more than Plaine Em, or any of think-  
ing.

The Interocean republished anything fa-  
vorable to Lincoln it comes get hate  
of it, and I finally got Nathan to  
republish the Congratulator editorial,  
and when some of the Country papers  
in Illinois and some in Ohio  
and some spoke loudly the Tribune  
of Chicago as you saw got aboard, &  
now the Evening Journal of Chicago  
is all right,

In April & May I gave Chicago friends  
a piece of my mind, I told them  
that you did some of them down with  
worth killing, it did them good, thank  
Heaven we got the craft started more  
in den good Henderson before they brought

the work which to get on board,

Did I send you the Allen Sil-  
graph of the 21st inst. Thereon hang  
is Call, Call.

I felt from the outset, that the reason  
you gave in the Continent in 1884 covered  
the whole ground for this man's work  
you, and that all that was ne-  
cessary was to get those ideas  
and those arguments before the  
masses, when the result would  
be to spend only the Planie  
Bluthe's kite following for his  
demonstration, and I think his  
reply shows the correctness  
of my calculations.

I am unable to interfere to see  
my Minister's liberation of the last  
five months. If O'Leary & Callan  
have not been handicapped I am no  
judge. Let me hear from you as often as  
convenient.  
Yours faithfully
