

TWENTY-SEVEN PARK PLACE

· NEW YORK ·

Aug. 26.

Dear Mr. Tongee:

Mr. H. is off on his vacation and I have just got back from mine (well earned, both of 'em, you bet! Mine the first two-weeker I have had since '73) and he has asked me to send you the books you write for.

I do not find Wood's Algae of N. A. in any of the catalogues. Is that its exact title?

Of Dana's Mineralogy I

find

1. ^{W. D.} Dana's Descriptive Mineralogy, \$10.
2. " Manual of " " \$2.
3. E. S. Dana's (son) Text book of " 3.50
[based on W. D. Dana's system]

Can you pick out to her from
which?

x x
x

I supposed I had written
you about the steel portrait of
the Judge, referring you to Miss
Sartain (who I think engraved
it) as the only source of
information. That was all
done with before I went to
Phila. I have today written
to her, asking her to let you
know about it.

We are all well hereabouts
I hope you and the Judge are
likewise. Faithfully Yours
H. W. B. Howard
