

Chester S.C. Nov. 8th 1890.

Mr. Albion W. Seargeant -

Dear Sir: I have written to you once before trying to state to you about the horrors of the South but it is no use in anyone trying to tell the misdeemeanors of the South for it is impossible but I am sorry to see that that party seem to be getting stronger & stronger It seems that injustice is about to reign over justice which is the Republican party the great party that freed the Slaves & saved the Union seems to be sinking into decadence but I hope that our great party will not become discouraged but I hope that they will brace up & take new courage & sweep a great Republican victory 1892  
Honorable Mr Seargeant I cord

See how New York went Democratic  
with such a noble & generous  
hearted man as you. The majority  
men of New York must not to  
have taken copy after you.  
I write you this hoping that you  
will keep on in your effort fighting  
for justice & right & perhaps we  
will conquer by & by. Mr. Turgie  
& write you this as I am a Colored  
man wanting to complete my educa-  
tion and I am here in the South  
where the democrats have all the  
laws in their hands & they have  
all agreed not to give the Negro  
anything for his labor I teach & farm  
both & get nothing for neither. So I ask  
you to please aid me a little & I will  
be more than thankful to you and if  
you want reference to my principle I  
will give it to you. Your friend  
Sylvanus Henry
