My dear Index

Herein is the  
'Editorial slip' I propose  
for M. E. Please read &  
mark, having inwardly di-  
gested. I don't mean re-  
write it, for of course it  
can be altered; only if  
it has said some things  
that ought not to be said  
or not said something  
that ought to be said,  
say so! You will recognize  
some of it as concocted  
from several of your  
letters to me.

Perhaps we could  
get some copies bound for you to give away  
I was only they must be sold for that  
would be "publishing" & knock the Eng. copyright.
