PACTOLUS PRIME

ALBION W. TOURGÉE,

PRICE, \$1.00.

This is perhaps in all respects the most unique, fascinating, irresistible, and yet scathing and profound, of all Judge Tourgée's works. It cuts across American civilization in a new place, with a new knife, and will make some people smart who never thought of being called to answer such accusation, while other types will draw a sigh of relief that they are touched so lightly, and to many more it will come as a vivid, blinding revelation of undeniable facts for the first time clothed with tragedy and pathos.

"Pactolus Prime" is a novel of to-day; written in the language of to-day; depicting the thought and life of to-day, yet showing the hand of yesterday in creating environment and establishing tendency, it is full of power and pathos, with one of those strange, obscure veins of sentiment and retribution for unmarked and forgotten evils running through it which are so often found in this author's works.

Hardly anything this author has written is destined to have so wide an audience.

WHAT HAS BEEN SAID ABOUT "PACTOLUS PRIME."

"In his new novel Judge Tourgée has scored a great success, it being by far the best work he has done since 'A Fool's Errand.'"—*Republican*, Springfield, Mass.

"Judge Tourgée has written nothing that is at once so interesting as a romance and so strong an appeal to the sense of justice."—*Bulletin*, Philadelphia, Pa.

"'Pactolus Prime' will give the reader a new idea. The negro also has race feeling, and this book is a remarkable portrayal of it."

Speaker House of Representatives.

"'Pactolus Prime' is a character drawn with superb art. * * * Here is a romance of one phase of American life set forth with boldness, breadth and vigor, and embodying an interpretation which, whether right or wrong, bears the magnetic appeal to sympathy that is not lost on any sensitive heart."—*The Independent*, New York.

"The book is a forcible presentation of the color question; an illustration of the difficulties which confront the man of negro blood in any degree who seeks to raise himself in a white community above the level of his race."—*Tribune*, New York.

"'Pactolus Prime' is a powerfully-written book and of absorbing interest. Treating of facts, rather than theories, its vivid pen pictures reveal a prejudice startling in its proportions, a chasm between races abysmal in its depth. How the one can be overcome and the other bridged are practical questions which must be answered. White men and women who love the republic and seek its safety will read this book and pray."

U. S. Senator
from Maine.

"It is the part of the author to force attention to omissions and failures in moral duty, and to warn of danger. He addresses feeling powerfully to these ends and makes the way easier to the reflection and reasoning that convince."—*The Globe*, Boston, Mass.

"Every page is full of life and thought."—*Advertiser*, Dansville, N. Y.

"'Pactolus Prime' is a masterly and vivid portrayal of the portentous question just now confronting the American people. The white followers of the 'White Christ' are forcibly reminded that nations no more than individuals can avoid the penalties of wrong acts."

M. C. from Kansas.

"Judge Tourgée is original in his methods, and his works leave a peculiarly vivid impression on the mind. 'Pactolus Prime' is one of the strongest which has appeared from his pen."—*Traveller*, Boston, Mass.

"It is a powerful story told in Tourgée's best vein."—*The Critic*, Washington, D. C.

"I feel that this book is going to wheel thousands of young men and women into line for the battle of human rights."

Pastor Park St. Congregationalist Church, Boston.

"No other than Tourgée could produce such a hero as Prime, or, having produced him, could make of him the symmetrical character found in this novel."—*Telegraph*, Harrisburg, Pa.

"It is the most able of all this author's writings. Pactolus himself is a remarkable character, and his history is as pathetic as it is suggestive."—*Congregationalist*, Boston, Mass.

"A very remarkable delineation of the awful woe that springs from the spirit of caste."

President of Howard University.

"Whatever Judge Tourgée writes vibrates with human interest."—*Inquirer*, Philadelphia, Pa.

"A most remarkable book, destined to stir the hearts of many as they have seldom been stirred."—*The Inter Ocean*, Chicago, Ill.

"'Pactolus Prime' was not the creation of the author, but the product of the civilization so ably and so graphically portrayed by Judge Tourgée. No other country and no other time could have produced him. He was *ex necessitate*—the outcome of his peculiar origin and environment. Like Topsy, he 'jist growed.' The book thrilled me from first to last."

Dean of Medical Department of Howard University.

"Nemesis, pointing with warning finger to the future, is seen through all the pages of 'Pactolus Prime.'"—*Journal*, Jamestown, N. Y.

"It is impossible to deny the force, literary excellence and absorbing interest of the Tourgée novel."—*Advertiser*, Newark, N. J.
