

Fair Haven

Dear George
Apr 10 71

I have just
recd your notes in the
issue of April 7th and it
voices my sentiments and
I must perfectly =
and I lay the blame
just - where you do =
and fear by fear I see
worth men Enterprise
and money going there =
and I see them even
men of them going there
with the Southern element -
White - as against the
Black every time and
know that the Republican
Party has done and believing

That they intend to do some-
thing = yes absolutely fear
to do any thing will also
believeing the Democrats
would do something =
and thus any thing is
better than nothing =
Yes influenced one and
lots of others to take the
common way to success
if need be to accomplish
something for the world
will do - shall still = whether
will the people = and Glad
has been the great director
in the past = and from
present - out - look must
be on the future more or
less = Ed. Lovelace
