I just read the By Stander  
news in Weekly of April 7  
and being a citizen of Texas  
resident of the South ex union  
Soldier & C & C of course do not  
think Mr Tanager is as severe  
as he might be.  
He does not touch on the bill  
now a law passed by this  
Legislature - establishing  
a Land Grant Home under  
State control and support  
making several soft places  
with comfortable salaries  
which excluding from its  
benefits ex union Soldiers.  
He does not mention that  
they voted the flag as well  
must over the capitol  
and that a defiance was  
the day and of respect for  
matter of Mr J. E. Johnson  
while no notice officially  
whatever was taken

of the death of Genl Sherman  
 marches in mention - as men he  
 could have done without  
 obliging for, the veto message  
 of Gov Hoop of the Sugar  
 bounty which costs this state  
 \$50000 - or last year year  
 but the message gives, the  
 Gov the opportunity of venting  
 his spleen against the  
 Federal government for  
 daring to exist  
 during the war in the state  
 all the while since the war  
 make the statement that since  
 Cleveland was elected we  
 made more of such stuff  
 than in all the years since  
 65 to you then. They think  
 it happens, you see, and the  
 northern dough faces cannot  
 understand the situation.  
 I hope Mr Tamm will respond  
 with another article with  
 distinct understanding that no  
 names are to be used. I am
