

Since Receipt at K Apr 18th 1891

Dear Judge,

your notes of last week on the Negro
to your so called Southern friend
were timely and fortuitous and
as sure as you are a man your
doctrine will win, I see where
the people of North and the South
get the idea that the Negro is ungrate-
ful and untrue is strange and hard
for me to comprehend and when
Colour blindness and "Race Prejudice"
shall have disappeared from the
Minds of the American people and
its Press and the status of the Southern
Negro has been written by an un-
biased mind the Negro will forth-
with stand in his manhood and
his glory as a man among men
and true to both his religious and
Political Proclivities, your Southern
friend forget that there are exceptions
among all people i.e. black sheep in all
flocks

2
He evidently makes his remarks from
some fancied injury from some
colored individual and not from
the mass of colored people -

We have been true when
called on both in time of war
and peace and as a people will
continue to be, as a matter of fact
both parties have had more within
that never did care a cent for the
Negro or any thing else but some
flimsy question of clap net to
make political capital out of -
The colored people were asked to
help Mrs. John Brown and they
did as to the best of their ability
and you know as much about
the actions of the colored people
towards the raising of money for
the erection of a monument
to Abraham Lincoln as any
body and they were very patri-
otic in their actions,

3

White Republican Sheriff of
a County to be virtually the
rapacious officer over all the
other officers who in many
cases chanced be Negroes
and use the money of the office
at will to do some political
and the use of Public funds in this
manner always created a brown
sny, and in many instances
caused the turn over of Counties
to the ~~rebels~~ and the same
had its influence in State legislators
Judgeship Congressmen and
U.S. Senators. Then nine tenths
the White Republicans married and
enter married into White Negro
Critic families of money of whom
I caught in in the rebellion and
the forebears used the family
ties to win in politics and
they prize times won
again these fellows would tell
the Negroes that the only
use they had for the Negro

was to vote for him as they wanted
and that the Negro struck in their
Nostrils that the Negroes were
No more than the common
Cattle and a thousand other
foolish and uncalculated
things that many of which has
Worked for the detriment of
the Party and has in the goal
and has largely helped deteriorate
the Patriotic devotion of the
Negro, until the Negro can be
brought to say and the hand of
every man is against that man
and he thinks he is the man
Against this has been a large
fingering of Northern People
into the South since the war
and every all these Northern
Democratic and one interested
for or for while here and when
they return home they write strong
letters into the South with a tendency
for the Whites to ~~ruin~~ ruin
all this is bad politics

you may not know it but the
Cause of the Cancellation of things
in the South to day was precipita-
ted by Southern and Northern
White men who called themselves
Republicans. There is the Late Republi-
cans of South Carolina, Georgia
Florida, Alabama Miss. and
Southern States. Who cause them
seems to do as they did. The history
speaks for it self. These men to you
the Southern Bourbons that
Political cue to bring about the
very state of affairs we have
in the South to day. I have read
some fine stories about boat
ships in the great state of New
York in the Palmy days of
Robert Cankling but the good
people of the North dont have
any idea of how things went
on in the South. It was a
common thing for the

5
and for the last ten years I have
not been able to see an article
from a single White Republican
defending this Euroborra
with the single exception
George W. Cable and he had to
leave the South and to day
your notes are spoken of by White
Republicans in the South, as vicious
dangerous and hostile to the South
putting black heels on white necks
making the Niggers the equal of the
White man, & oh how thank God
from the high heavens with all
these hell hounds and their
bats may do and say right is right
and the Wald does none and
I do believe God is just and
in his own good time will
make all men or equal and exact
justice to each and every nation
race and man.

you are a God's given blessing to
this land of ours, and God has
designated you as a thorn in the
side of Worry does.
Never grow weak but strong
Never mind blame or any
body else. This paper is not for
Caesar or crassius but for Rome
you are creating again a new Patriotic
Sentiment and feeling in this Co.
that run over it in the days of
Lincoln. Grow and flourish
I am yours for right and nothing
more.
A. M. Middlebrook,
Deputy Collector of
Duties.
