Dear Bro

Yours of the 25

at hand. did my note suggest
 to you that I was angry? I had
 not thought it possible of such an
 interpretation. I was not in
 that state of mind at all. all I
 intended to do was give you the
 simple facts & I was not conscious
 of even a single interruption. I did
 & do still, regard your coming as
 a great favor & feel under many
 obligations to give you aid in
 experimental endeavor & give ad-
 ditional vitality to moral & religious
 interest in the Dist. Your wish as to the
 form shall be followed

Yours truly A. H. Keeler
