

1807 CHESTNUT STREET.

Mrs. A. W. Tourgee

Dear madam

I enclose a spring  
for the regulating fixture in  
your daughter's case. It  
may need some adjustment  
as to tension which the  
dentist who inserts it can  
easily make at the time.  
I have reproduced the old  
spring as nearly as I can  
from the model and without  
having the whole apparatus  
for guidance. I am sorry to

heard of your recent illness  
and hope you had both quite  
recovered by this time. I can  
fully sympathize with any one  
who has suffered with the grippe  
as I have just gone through  
with a severe grip myself,  
hence the delay in answering  
your letter.

I have placed the cheque  
to your order in account  
Thanking you for the same

Yours sincerely  
Edward Clark
