My dear Judge,

Is not your list of  
works incomplete in a very important  
point? Should it not also contain

North Carolina Constitution,  
especially Courts and their  
jurisdiction.

Code of North Carolina  
and cases under it collated  
and classified in notes  
An unequalled digest  
and table of cases contained  
in one volume showing  
accurately the exact condition  
of the law of North Carolina  
on any point, the leading  
cases on the subject, & the  
cases modifying, explaining  
or overruling such leading  
cases, some thousand  
cases compressed into one volume  
containing more law well stated  
than any one volume known  
to me.

The Annual Address at  
the Buffalo Law School  
commencement in 1890

upon the Unwritten Law; by far  
the most profound and thoughtful  
discussion of Codification of  
recent years.

Lectures at the Buffalo Law  
School upon Ethics, that  
subject being the one assigned  
Judge Touger as a member  
of the Faculty of that Law  
School; his working down  
to the root questions and  
considering them in the light  
of Grecian, Roman, Continental,  
English and American history  
and the teaching and practice  
of the Law of today.

Try your hand at condensing this table; I  
have not the time now. May I take a  
few liberties with that letter so long as  
I adhere to the main line? I would only  
make the law a little more prominent.  
It is admirable in statement and temper.  
With it would it not be well to suggest a  
Circuit Judge appointment? You may at least get a  
District Court then. With all wishes to your family and self.  
Yours truly - Adalbert Moot
