Burlington Heights, Ill., May 11th 1891

Albion W. Lougee

Dear Sir

Having noticed an article
in the N.Y. Ledger in which
your pitiable condition do not
dissain to say a few words which
may be of great benefit to you

Regarding the circumstances
which swerd you from the ^{the} mystic
and hoping they will generously order
a reconsideration of them

Liberal drinking of Magnetic
Water and Baths with highly ^{vitalized}
persons (I mean rubbing rolling or kneading ^{vitalized}
colored men are good)

may restore in a few months what
all the Doctors in the universe
cannot do

The Extract of Saw Tooth Palm
Manufactured by Lilly & Co is also a

be a valuable article and is of great value in restoring the vital and force.

Three Rivers Michigan has one of these Magnetic Springs and very Skillful Physicians are in attendance.

Fort Atkinson Wisconsin has another but the waters are not used under skilled directions and still hundreds of people are cured by simply drinking its water.

The philosophy of these waters is that they penetrate every part of the system & carry life with it.

Try these waters and do not waste precious time or be guided by those who are pecuniarily interested.

Hoping to hear of your Complete recovery

I am Yours Truly
Wm. Dyer
