

WEBSTER H. DYAS,
DRUGGIST & PHARMACIST,
AND DEALER IN
PAINTS, OILS, GLASS and PUTTY,
BOOKS, STATIONERY, NOTIONS, ETC.

Burlington Heights, Ill., May 18th 1891

Albion W. Lurgie

Dear Sir Mayville N.Y.

Your very courteous reply of the
15th ult received

I nearly mistaken in my conclusion
of Prelude a Son of old Henry I am
certainly glad

of the many true and noble women of
today the trained Nurses hold justly a
front rank for example Presbyt. Hospital

Though Masons are seldom unjust
it nevertheless has happened to make
some unjust suspensions which have
afterwards been rescinded and those who
-richtly deserved them did not even
receive a reprimand

Paraplegia is a form of Paralysis
which I think would be greatly benefited
and cured by the Magnetic Water of

Three Rivers Mich

Long standing obstinate cases of Rheumatism have yielded to these waters when all other remedies failed.

How it acts I can only explain by my own use of the Magnetic Water of Fort Atkinson this was shipped by freight in a wooden $\frac{1}{2}$ barrel (not much of a non conductor) in fact its water would not magnetize steel as they do at the Springs I took this for weakness of the bowels or debility (it makes little difference ^{caused by repeated attacks of inflammation} what it is called) within two months I had gained thirty pounds and felt as solid as ever if other men have done better on other treatment I have not heard of them it seems to send its magnetic rays through those seemingly lifeless parts in a most satisfactory manner.

Should you come west this summer do yourself the justice to give them a fair trial say four to eight weeks.

My understanding of those in charge is that they are swindle - the best read of Physicians Gentlemen (and not Robbers)

Their charges being about 6 to 10⁰⁰ per week according to accommodations.

I believe there ^{are} many persons dying annually from Paralysis who could be cured.

At any rate a visit to this Spring may give material for a new Novel with some points of reality to it.

Very Truly Yours
Wm Dyas
