Mr. Shaffer

Dear Sir

Yours We

And you must excuse me for not collecting you of my failure & make 2 efforts to make you find most things. Each time I lost both lots! No properly care I smoke these things, you must catch it in a bag of material, coal matches. And for this reason, they can only remain in fact a very short time - Then the ball used of the evening & spread on the opposite or covering properties of the smoke. Therefore if you have 1 or 2 shot days immediately after having them up & before you get the full effect of the smoke. You have them a little off & you have found out what it is good for. I repeat it -

Yours truly
W. R. Capehart

I failed to
tell my family
anything -
