June 10. 1891.

Dear Mrs. Gurgie

I am so glad to be able to send all at the time you mentioned. The box started today and I certainly trust all will be satisfactory I have tried, and you have been patient and kind. I could not possibly get more of the red India silk, the right shade and so made the waist to the best advantage with the material I had, and as red and black is the most fashionable thing that can now be worn I hope Miss Gurgie will be pleased. The puzee is made so that it can be worn with different waists being a neutral

shade, I thought it might be
desirable. I have also made
a ruche ^{for the red.} which was left from the
skirt. I thought it would be nice
for a change should the collar
be too warm. Please let me
hear from you as soon as
all are received, I will sew
them in the box this time
so they can not mess up so
easily. Thanking you again
for all past kindness
I am gratefully Yours
E. N. Boyd.
