Judge Tourge,

Mayville, N.Y.

My dear Sir -

The only refer-  
ence I have seen to the  
mohawk Conference, clearly  
indicates that the Southern  
influence took complete  
possession of it.

From your conviction  
as to how your address was  
received by the body last year,  
also your criticism, in the  
Inter Ocean, of the first meeting,  
I had made up my mind

that you would not attend again, and in my last letter I expressed a desire to know whether you would be there.

Had I been positive on that point, and felt that I might be of help to you, I would have been there, I was sorry afterwards that I did not make greater exertions to go, but I can see no good to come of it if fettered by the Southern craze, controlling the Nation - Church and state. If you went, please give me an idea of the sentiment - whether with or against your position on the negro question. Sincerely &c  
J. T. Robinson
