Albion W. Tounge Esq

Mayville N.Y.

Dear Sir

I thought I am a stranger to you
through your writing I have for several years
been acquainted with you & recognized in Albin
W. Tounge an individual with all your life for the
benefit of humanity. In this communication
you might be aware that there are those in the
world who do not like the idea of your labor
in the spirit of brotherhood in the human race
and that you will be a great benefit to the
world as a human individual. Really you
are a great man & I think it would please you
to know that you are so warmly
appreciated and so warmly
loved by those who are with you.

also a letter from him giving some account of the
Brotherhood of the New Life of which Society Mr Harris
is the leader. If you are not already acquainted with
Mr Harris or his writings, I think you will excuse me
for asking your attention to the newspaper accounts
of the man and his work.

This frame is now at broken down old Dilan
laid up for repairs (temporarily I hope) at a Soldier's Home

Very Sincerely Yours

Frank S. Wiley
