

It is so sorry that you
should have a new such
a cold while here and
you anxious to know
how you are feeling -
I'd had rather than
any other experience in
trying to get a girl for me
to hunt down to "Lack's
Garden" expecting to have
a choice there here I think
the first visit - three men
and to cut a girl of about 12
years of age for the first
visit to be here -
The part seen well by
employers here a number
of people waiting he thought
for the arrival of the young
lady what success they
would have in handling
girls - One has a number
about the emigration of the

long before. There were two
hundred of them and
one of my P. Anon. sent
them to be tried - the of
course was annihilated
but the my brilliant project
for me that was it was.
How much better of many
I hope to see at the right
in convenient times.
I since to know of you
with you and with
love for the and not
yourself. I am your
sincere friend
