Mayville N.Y. Nov.14th.1894

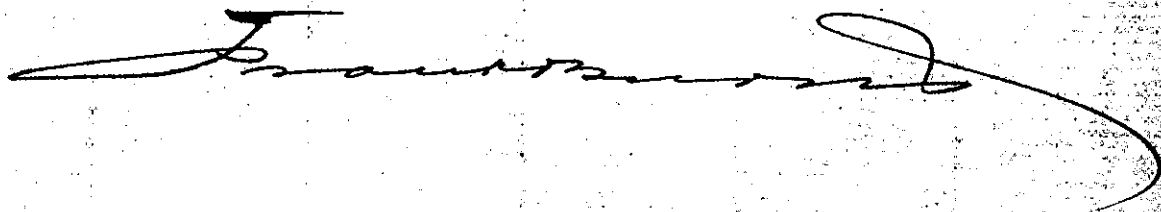

Dear Madam-:

Some days ago I spoke to Peter, about making some repairs around the front door of the house I occupy, as they are absolutely necessary, Since that time the weather has caused the building to settle much more, and it is impossible to keep the door closed unless it is locked, and then the lock barely catches and least pressure will open the door. There is an opening of nearly half an inch all around the door which lets in a great deal of cold air. By giving this matter your attention at once, you will confer a favor on me.

Yours truly,

To Emma K. Tourgee,

Mayville, N.Y.
