Dear Comrad

How often history
repeated its self. Once more a young
man appears and think he wants to purchase
the little farm over South of town. Says he
can pay \$100. down and the balance in
\$100. yearly payments with annual interest
on defured payment. What shall I say to
him.

P.S. I have not been able to be out but very
little so far this winter. Mrs W is able to
be busy as ever the children all well.
We read "the Story of a Thousand" with pleasure.
