My dear Ingers

I have "The Basis"
Circular and have sent
my Subscription hoping
I am by no means the
first - I do not like
the title so call it the
our first suggestion but
no matter so the "ideas"
are all right and I
wish you Good Speed
and success in the
undertaking. We need such
such an education here.
We have a City Book an

the federal plan - elect a
Mayor and he appoints a
Director of Public Works - Police
Fire - Charities. & also all
of whom constitute a Board
of Control - Mayor & etc
each of the Others Two of each
known for two years -

The Democrats have had
the pole for two years
- given us only a fair
administration and now
that a Rep. Nomination is
equivalent to an election
five Democrats are seeking
Nomination and not one
of them is at all fit for
the place and he will
be a tail ender - I don't
think I will bother to vote.

Need I say I still enjoy "The
Stronger" - As you were then
person at time of "Milton"
you do not know how much
good that fight did in the morning
It restored the Morale of the
Regt - you know as you have
written it that up to that
time everything has been
demoralizing - running from
a phantom enemy - fighting
against hope - Chas. Morgan
as fact it was then to fight &
win was great. If you hear
from Potter could be glad
to see the Democrats.

Do you expect to spend any
of your time in Buffalo

in connection with "The Basis?"

Am glad to see Old winter
Taming - has had more
than I want & am now
figuring to leave next Saturday
for the Springs at Cambridge
for a weeks visit. Wish you
could join me - Can't you?

Mrs R. and family with warm
love. Geo. has the Map
nearly finished and I think
a good one and hope it
will suit you.

Remember me with
kindest regards to your
wife and daughter Helen
