My dear Judge:-

Your kind and considerate letter of yesterday, from the Tifft House, has been received by me.

I am still in the trial that commenced Tuesday morning, hence I have not been able to revise the certificate or finish the letter I promised, as yet. I find it a matter requiring a little care, and may get the time to-night, or to-morrow morning, to finish, when I will send you the result.

Do not trouble yourself about the outcome, because I feel sure enough will stand with you to give you a chance for your venture. The spirit of your letter to me is admirable, and I shall use it accordingly.

Again wishing you and your enterprise success, believe me,

Your sincere friend,

Adelbert Moot.
