

It didn't back  
 Emilia was looking very  
 Sunday and she said she thought  
 I would be necessary for and to  
 by a horse on purpose to keep  
 them in before long if they kept  
 you necessary as they had for a  
 great part - and I am something  
 of an opinion - a - - going to stop  
 looking right off for Hill is planning  
 at and to get another such a long letter  
 and I don't take to be long at  
 me - but you know He thought he will  
 be here time to cut you out of the  
 great day so soon - but now I have  
 been speaking every all day or am  
 shut for him and have got them all  
 to do up tomorrow  
 Bye for yours & mine  
 Emma

Cornwall Feb 21<sup>st</sup> 1860  
 Tuesday

I am so very very happy writing  
 to you - the last one I wrote you so  
 hurriedly that I can remember getting  
 it was intended to write you last  
 real sick - (nothing serious) but I  
 quite - a great deal - I don't think  
 I did the first time - those things  
 naughty for you to write but I  
 it doesn't make so much difference  
 as long as you before  
 such a precious letter as you wrote  
 me happy ever since I read it first -  
 and I cannot tell  
 how many times it has been read -  
 I was all the way through it -  
 when such dreams come  
 to you you pay attention to me  
 fear that I felt very obliged that  
 the moment when my  
 first born - base is first  
 arms around us - will be the  
 most precious of my life - for a  
 moment that I dream of and long  
 for every day - it is the  
 sweetest dream that comes to  
 me - to think of and speak of  
 such a short time - I wish you  
 were here - I do not wish you  
 as much as I - I was the only  
 one of our girls that ever  
 enjoyed this affair - I was  
 ever - develop itself - when  
 I was five years of age - I  
 myself when I was five years  
 old - I did not know what  
 was to become the mother of  
 my - I know I was trying to  
 something that was born  
 before - I wish you were  
 there - anyone to love but  
 you - I think it is just

I was very carefully after what you were to be always right - I.G. - for I don't want  
to know what you thought of my paper - I never did like being a part of you that  
I should be a part of you - and one thing that I do not like  
about you - is that I never can be almost with you - before you  
five minutes - before he will make an attempt to keep me - I  
would just as pray have a fair talk in any letter as you. Now  
what do you think dear - did I not feel right toward I.G. and was  
I wrong not to tell you right off? - Most your good nature - you ought to have  
I and don't that you know - Most your good nature - you ought to have  
made eye of it at first - I especially like very much to have seen  
it - I and rightly always enjoy keeping house - I made some  
has naturally that you should enjoy keeping house - I made some  
I should speak just right - the best to keep house for a long time  
I do not think my dear that I have that respect too for house that  
you have - I know that I have a much more love for than  
and compare them you but I will try and overcome this - I would  
do all I can to get you to make our house a happy one - and I feel  
that I have got now the same desire for you that I had a year  
ago - and I hope that in 10 years that will please you - you  
know and be more I shall have to desire you - I hope to  
make you happy and have happy - I hope to have you - I hope to  
it is to be with you always - and feel that in my heart  
I ought to say where you - to feel that you are more than  
any other one - How happy you are happy for shall be  
obtain - Halcy had written you a letter - and sent you something  
to see and answer her letter - you refer to her by do you refer to her  
by any other name - I think it will be good to send you  
did I think it will be good to send you a letter - I think it will be  
good and make out as little - I hope to see you - she is real  
I do like to see you - I hope to see you - I hope to see you  
you will think I refer to her as I refer to her as I refer to her  
but you see I am very much interested in you - I hope to see you  
couch and see you - I hope to see you - I hope to see you  
Please - I have arranged it as there will be as necessary for you
