

that had upset you. I almost expected were trying to persuade you to make  
to you something had befallen you me (a priglow). I judge never regretted  
when your letter came. This week for my own, love all I have given you  
I had felt so strange about four that I have placed given you myself  
week. There has never been a time entire and hidden now as you would  
since you have been about yours and trusting all to my lover that I would  
that I so much desired to see you to be my husband and now if it has  
put my arms around your neck in saped you from some dreadful  
the old way and tell you how very fate I am all more happy for it  
dear you here, something seemed Dear love I wish so much that  
to tell me that I must fly to you that precious a chin's head could  
and tell you "that ~~Christina~~ faced to have been with mine that night,  
you" often while intent over my studies if love and mercy could have  
you would be near me and seem to pulled it to rest I am sure it would  
loved me so much have rested sweetly. I will wait

I cannot think of what one thing that could have happened you so much until all the mysterious in your  
and that only abstract and after letter will be made clear to me  
I had somewhat gotten over the effect and yet shall think it best if  
of your letter and did not seem you do, that it is never made  
at all probable out. I think that clear. -  
must tell you what it was. and Dear me! I can only write a bit  
now - that those "true legends" to you yet I want you should get  
it tomorrow if it is just a mile.
