Dear Mrs. Hunt
Sunday Dec 9th 1860

I have been thinking
for the last few weeks with my hands
up Mrs. Hunt's lap and her soft foot hand
up your thigh to drive the paper and
the pen from your fingers and the pen
-cupped your forehead. I want to see a great
bore up your forehead and your feet
be with me do not think I am just you will
ever have to make any effort more for
me than me to lose you. for she has
my heart now and I am sure this
will give your heart she is so big high
and loving to you - everyone takes her here
some of the girls cannot expect their love
enough - the bracelet hangs to hand fast
right all day - I think it really splendid
I am anxious to see you and I am sure
displayed such good taste & shall never
be afraid to trust anything regarding
to your judgment. One of our young ladies
is going home tomorrow and she will
by the way of Rochester and she can
take the money to you. The mail does

over I am going to purchase design by going to Ross and
my present. Helen is big design printed that my shell got very
while of design and I thought I was to be. I am dead, not like
my dear boy you left today. I am going to design it myself to
of course I begin for myself I might be but I really would like to
have and all my effort and I really believe you have
trouble I again don't keep it from me dignity but I hope my
for quality. I am sure you point again about things you love
on the subject, do you think it has the best now. I don't believe
you do. I am sure you'll all about what you like and see
things don't you together, it seems real good to me in all
with my handwriting. My design is not of the same sort term
with people and people of you I think but I think it as much
as I have the same. I shall go on the way I sleep and I see
page of teacher in local music as I hope I shall get
I shall take to get anyone
I am real sure you think you cannot come and see me
design by calligraphy would be so elegant for you to come
to my garden, and he would be good to see you
as I think say. I am sure I may design that I want to
be good of good - I hope you think I am good.
I thought of letter with you quite natural to you being
so close together, it had your name signed in your
have to be such in you. Your above say to see especially the
motion from you. I should think he would have to put
