

How many of our Upsilon brothers have shown themselves  
truly patriots as defined by Coleridge - who +

"have nor form nor feeling in my evil  
subscribed from my country" I doubt not  
there are many in the service of whose enlistment seem in-  
nocent. I wish it could be my fortune to meet some of  
them, in some of our marches. Have any of our members fallen  
since Webster met his fate?

If you think that I bring  
to you a record worthy of a son of Psi U in  
these days of great events, please let me hear from  
you soon. If I never again address you, please  
let my name be marked as that of one who struck not  
from a soldier's grave
