

Kingsville July 29/66

Dear Albin

Enclosed find documents from Treasury Department for Back pay. It came to comment and was then sent to me here.

I was real glad to get your letter and learn that you were getting along and sorry that you were unfortunate too. Hope Emma is getting along well. I meant to answer your letter at once but was in a hurry and neglected to do it. The Cherry Pitts were a failure with us here we managed to save a quack or two but concluded they were not

worth sending to you
I was not in fault in
regard to the Brown Corn
Seed as you told me you
would be sending for something
and would have it put in
and I supposed you had been
supplied

Resette has been
poorly all summer she
has had frequent and severe
attacks of Bilious Cholera
of a dangerous nature we
hope they will wear off
in time. her thought is
better. Otherwise we are
all well and are getting
along as best we can

Our fruit crop is light
and poor at that except
grapes which promise
abundance
Yours faithfully
W. George
