Dear Sir & Friend

Your such I shall full
you for I know of no reason
— or why such should not
be the case for altho
you and Seneca might
of disagreed it is no
reason that we should
disagree I am certain
that Seneca could not
misuse you worse than
he has now since his
return, but let that pass
I should like to hear
from you and Mr
Rittner folks how you
are getting along do you
run the Mendenhall
Plantation yet

We have had a long
winter snow is two
and half feet deep in the
woods

I am tired of this cold
chill from the heat
of summer I forget
that North Carolina or
East Tennessee is the
best, I am most sixty three
years old I do not expect
live long but while I
do stay I should like
live where I could take
some comfort I am tired
breaking roads over drifts
seven to ten feet deep
I do not want much of
a farm from thirty to
one hundred acres.
what for a small farm
improved to get the best
If you are disposed to

I would like for you
to give me some infor-
-mation by writing
or News paper
I should be glad to
hear from you.

My respects to your wife
and all

Yours fraternally
