Mrs. Emma K. Tourgee,

#2015 Kalorama Ave., Washington, D.C.

Dear Madam:-

We have received your letter in regard to the markers with lettering for same. We will get them out and have them go with the monument. Also return the contract with the inscription which is to go on the monument.

We have made a note of your suggestion about having the monument unloaded at The Junction for which we thank you. Do not think there will be any possibility of a failure on our part to get the monument there and set up at the time you desire.

We understood about the acute accent being over the first "E".

Yours very truly,

Dio. W. H. K. / P.
