Mrs. A. W. Fourcee,

Washington, D.C.

Dear Madam:-

Your favor of recent date received. My sister has been further west, visiting some friends, and only just returned. I have gone over the matter of taking an apartment in the house you are fixing over in Mayville into an apartment house with her, and she says that owing to the fact that the apartments will not be heat by a general heating plant, she does not think she can use any of them. What she wanted particularly was to get some rooms that would be heat in the winter so that she would not have to bother with the heating plant. She probably would not care for a garden or a yard so much, but wanted to get a place with all modern conveniences.

She will probably return to Mayville early this spring sometime and if you decide to make any change as to the heating plant, etc., she can probably see you or your agent there at that time.

Thanking you for the trouble I have put you to in regard to same, I remain,

Very truly yours,

E. L. Morris
