State of Washington.

Brighton Beach.
March 18th 1906.

My dear Mrs. Dougan.

Your letter was very welcome, also the photograph of yourself. Yes I should have recognized it any where. I think you have changed very little.

Thank you much for giving me the opportunity to have a glimpse of you.

Had Judge Dougan any late

photographs but looked like him.

You must have had a delightful trip through England & wish you could have visited some of my relatives there, they would have welcomed you for Cousin Lora's sake.

Did I write you that Cousin Dora is now living at Hampton I think you what my cousins write that she was very disappointed in England. So one of the grand-daughters, Annie Dixon came to Hampton with her, after a short stay there she spent a week in New York at my brother-in-laws and then returned home.

My daughter, Allie who is in New York is coming down in April or May to be married, while on a visit here last summer she became acquainted with the gentleman, who lives near us. I hope you may see her before she leaves New York.

We have several friends in Washington and Allie promised one of them Prof. Ryan of the Agricultural Dept. to spend two weeks with his wife the past winter, but the time seems to be passing so rapidly I fear she

will not get there.

I did not receive the paper you sent from France.

I shall think of you next Decoration day when you will probably be at Mayville.

Every once in a while I read one of Judge Tourgée books. They sound so much like him, that it affords me real pleasure, although I may never read the ~~book~~ before. Did he write much in later years.?

Thanking you once more for sending me your photograph.

Yours affectionately
Ellen C. Lockerby.
