Los Angeles Cal.  
GLENDALE, CALIFORNIA. May 21-1906

P.S. In writing the enclosed letter I had in view that possibly you might deem it worth while to have it read as the tribute of an old friend and soldier comrade, on the occasion of the unveiling ceremonies; or perhaps included in any volume or memorial pamphlet.

I do not make this as a request but simply as a suggestion which those nearer the work and better acquainted with the conditions can adopt or reject as may seem most appropriate.

My address remains at Ashsteadula O. which I hope to be able to return in about one month.
