Gentlemen:

In response to yours of the 13th inst and enclosures. I enclose herewith my bill for \$26.⁰⁰ in payment of the Stove, Oven, and Refrigerator, which I bought of you some weeks since, which are entirely satisfactory.

As to the "Water Heater", so far as any advantage to us, it might just as well remained in your store as we have never been able to heat any water for a bath yet. After several attempts in that line we have given up in despair. It was guaranteed to heat water for a bath in 10 minutes after an hour's burning of the gasline at full blast, — the water was scarcely tepid.

Please arrange this heater for use as guaranteed, or take it away.

Respectfully,

Emma K. Bourge
