Majorelle, N.Y.
Aug. 27th, 1906
Monday p.m.

Hon. D. E. Murphy
Consul American,
Bordeaux. France

Dr Sir.

Your favor & the 3rd inst. was duly rec'd. Thanks for enclosed check.

I was entirely familiar with the foregoing Journal of matter. I am loth to say you are in error in thinking that nothing was accomplished until you took charge. If you had had it in the beginning it is possible you might have a different opinion. ~~But that is such~~

I am quite sure I gave you a list of the cases in which fees were

due from Mr. Richeaux at the Normandie, the day before we left there. Sept 18th, 1905 — And as to Mr. French, "~~no remembering~~" — as we talked the matter over many times, and he knew as well as I did what was due me, — and always assured me that when these fees were paid, they would be forwarded me. —

There was the Stinchcomb matter, — suit against Lucian Verde — in which Judge Young had directed a fee of 500 francs to be charged, this was not settled when my husband died, you will know if it has been settled since. There was a fee of $50. — as Commissioner for taking depositions in the case of Madame Hennequin — ~~I think~~ they which was finished and forwarded the lawyer in New Orleans in March 1904. — ~~and~~ the receipt for

acknowledged by him. the fee accepted, which he said would be paid, when the estate was settled. I do not recall the lawyer's name and address, but you will find a full record of it in the envelope containing the papers in this case. If this fee has not been paid, please send me the name of the attorney, & I will have the matter looked after for me by a friend in New Orleans. So as to give you no trouble. As stated this case was all finished, & you accepted, more than two years before the new law went into effect. So you can have no reason to turn "this fee" into the Treasury as "proceeds by land." — Should you receive it. There is another matter of Mr Jones. — money advanced

to send a boy — named Maurice, ——— to
me & his name has escaped me, — a sailor
who had never been on an American ship, and
therefore owned nothing from government assistance —
from Bordeaux to New York. — The sum was guaranteed
to be refunded by his brother. — This occurred in the Spring
of 1904. — The sum was not returned. On my husband's
death, Mr Frueh, at my request, wrote to a lawyer in California where
the brother lived, to make collection. I have never
heard of it since. — I am quite well aware, Mr Murphy
that I should have taken like memorandums of all
these matters, but you know only too well the short
time allowed me to settle up my husband's accounts, —
~~& the entire lack of assistance rendered me by~~
~~the remaining Consular officials.~~ My only other
excuse for not doing so, was reliance placed on Mr. Frueh's
~~assurance~~ that they showed the right dealing with me
he has proved himself so entirely unworthy, that I must

appeal to you. He has refused to make any accounting of personal matters between us. among which is the sum of $40. Clerk-hire, for which I receipted as I was appointed clerk of Hon Judge Longee died, and receipts for clerk hire until you took charge of the office. I had done a clerk's work in the Bordeaux Consulate for 8 years, some one else receiving the pay, — and when I came receive it. — Mr Frueh has not paid it over to me. I shall report this matter to the government if he does not render me the account.

The State Dept. — in view of my interest in Consular matters has sent me all the Circulars &c relating to the "new dispensation" as I am fully informed as to the requirements of the reform

measures, passed by the last Congress
I regret seeing Dr Beaux, was not made
larger, - It is quite inadequate, - less even
than when Unofficial Fees were retained.

I am. Sir.

Respectfully

E K. J.
