Mrs. A. W. Tourgée,

Mayville,

Chautauqua, N. Y.

Dear Madam:-

I received your note and your late husband's manuscript entitled "The Unwritten Law and Why it Remains Unwritten", which I read with much interest, and which I have decided to publish if you wish me to, though I cannot promise publication very soon, since my plans for several numbers ahead are already made. The title just at present is somewhat misleading owing to the newspaper prominence given to the present sentimental tendency to condone murder if alleged to be committed on ground supposed to be chivalrous. This they refer to as the unwritten law. The subject of your husband's article is quite different. Possibly you may think it advisable to change this title, and I shall be glad to hear from you on that subject at your convenience.

LAS.

Yours sincerely,
