Dear Madam:- In reply to yours
of the 7th will say that I made a trade with
one of those stores thinking that I could get
it refinished here. Instead I have been obliged
to send it to the Quarrier and it looks now
as if I was not going to receive one dollar
for my trouble but will consider my-self
lucky if I get out even as I made the deal
thinking that I could get the work done here
The other stone is at Orville and I have
not been able to get an offer over it. I have
found out that there is nothing in second
hand stones

Very truly yours

J. L. Frick
