Hon. Jos. G. Beale,

2015 Kalorama Road, Washington, D. C.

Dear Mr Beale:

I am sending by same mail the engraving for you of Judge Tourgee. He will seem quite at home amid the familiar surroundings of your "Den".

I am not of your "constituency" but I would like to have sent me a copy of the Congressional Directory, and any other governmental literature you have to spare. I was so long with my husband in all he did, that I feel greatly the loss of not being en rapport with what goes on at Washington. I always acted as his private secretary, having taught myself typewriting for that purpose, on one of the first machines put on the market. You will see that I have not forgotten the art as this letter is written by myself on the machine I have used for 10 years.

With thanks in advance for any favors, I am,

Very truly yours,

P. S. I was glad to see your face among the new members in the New York Tribune of Monday.

Yours,

E. K. T.
